

OUR COMMITMENT TO YOU

"NORMAL" IS NOT OUR
GOAL, REMARKABLE IS.

OUR DIFFERENCE

When we started Compass, we knew we wanted to be different. We knew the “normal” remodeling experiences we had heard about [poor communication, a messy house, and going over budget on projects] were not going to cut it for us. “Normal” is not our goal, remarkable is. We wanted to create a building experience that is like no other, so we went to work on doing just that. After researching, listening to industry experts, and honing our craft, we have created a remodeling process that is different, delivers an experience like no other, and keeps you at the center of the process. Here are 5 ways we are working to deliver you a remodeling experience that is far above normal:

1. YOUR RESIDENTIAL REMODELING GENERAL CONTRACTOR

We take on the responsibility of being your singular point of communication. This means you are not required to keep tabs on the different trade professionals to complete your job, compiling and keeping track of all the estimates to ensure you're running on a budget, scheduling meetings and work times for your project to be completed smoothly & quickly, and so much more.

2. PROMPT & CLEAR COMMUNICATION

Investing in your home is one of the largest financial commitments you will ever make, therefore it is so important to trust your construction company to be transparent and honest with you. We have invested in an online project management software to ensure excellent and organized communications throughout our planning and production phases.

3. EXCELLENCE IN PROJECT DEVELOPMENT

A thoughtfully planned project is the key to an excellent experience and final product. We have crafted a project development process that will be your guide through your remodeling journey. This allows you to make important decisions, virtually see your project, and understand the budget before we ever swing a hammer.

4. ACCURATE BUILDING COSTS

It is no secret that remodeling projects are a big investment. You deserve the time and effort it takes to ensure your project comes out on budget. We dedicate the necessary time before construction begins to work through all the details with you, ensuring that your project comes within the guaranteed price.

5. WARRANTY

We stand behind our work, and we show this with a craftsmanship warranty. Giving you peace of mind knowing your investment will be taken care of, even after the job is done. Our above-standard of building will stand the test of time, but if something should arise, know that we will be there for you.
